BUSINESS

Associate of Applied Science

Option II: Business Administration

Option III: Entrepreneurship

Option IV: Management

Option V: Real Estate Sales/Management

Option VI: Paralegal

About the Program and Career Opportunities

The curriculum develops skills in critical thinking and decision-making techniques. The student is introduced to the legal aspects of business and the functions of accounting, economics, management, and marketing. The AS Degree in Business is appropriate for students who wish to transfer to a 4 year college. The AAS Degree programs are appropriate for those students who are employed and wish to upgrade their business skills and knowledge. These programs provide training and experience for persons who are currently operating a small business or who wish to become employed in the small business sector with management responsibilities.

How Do I Apply?

Everyone must submit an application for admission to the Admissions Office on the Decatur or Huntsville campus. At that time, you'll receive further information on admissions requirements.

How Much Will it Cost?

Tuition at Calhoun – the fees paid to take classes – is among the lowest in the area. A full-time student will pay between \$1140-\$1520 per 15-week semester. A single class will cost only \$285. Since the college does not have dormitories, the only other costs will be for transportation to and from class and books and supplies. And, if you need help with college costs, the Office of Student Financial Services has information on grants, work study, scholarships, and loans.

For more information, please call 256-306-2676
